Re: RIN 1010-AD11
Pipelines and Pipeline Rights-of-way
Request for Time Extension for Comments to OMB

Trunkline Gas Company, LLC and Sea Robin Pipeline Company, LLC, operating collectively under the Panhandle Energy (PE) name, operate an extensive interstate natural gas transmission system, of which 966 miles are offshore. This pipeline system receives natural gas from the major production areas of the Gulf Coast for transportation and sale in the Upper Midwest of the United States. The operation of this pipeline system is subject to the requirements of Title 49 Code of Federal Regulation Parts 190, 191, 192, 193, and 199 and Title 30 Code of Federal Regulations Part 250, Subpart J, regarding Pipeline Rights-of-Way.

PE is preparing comments per the notice at Volume 72, No. 191 FR 56442. PE believes that this Rulemaking is significant and that the Administrative Burden has been underestimated, but it will take longer than the November 2 deadline to prepare complete comments. PE therefore requests the deadline for comments to OMB be extended from November 2, 2007 to the same as that for the rule comments to DOI, January 31, 2008.
